We not only set the construction standards for the metropolitan Milwaukee region . . . the Metro Builders Association is the INDUSTRY STANDARD.

The MBA is the Industry Standard for home building, remodeling, and home improvement projects. The first step in your home building, remodeling or home improvement project is to check with the MBA for contractors and resources.

Only the very best contractors call themselves an MBA Member because:

- ◆ Members benefit from continuing education, updates on building codes, standards and regulations.
- ◆ Each member must abide by High Ethical Standards.
- ◆ We serve as the region's authority on Industry Standards for home building and remodeling.

Visit MBAbuilds.org for a searchable list of professional contractors.

Job Costing and Profitability Benchmarks Help Measure Your Success

What's unique about the construction industry is the risks and demands associated with economic upturns and downturns. Because projects have longer timeframes, the impacts are not felt immediately but require planning to prepare your business for an increase or decrease in future projects. This can be a daunting task. SVA is here to help.
